

DARLA DEVI LLC

PEOPLE. SYSTEMS. IMPACT.

Business Optimization | Back-Office Operations | Program Implementation |
Organizational Development

COMPANY OVERVIEW

Darla Devi LLC is a Black-owned, woman-owned business specializing in business optimization, operational support, program implementation, and organizational development. We partner with government agencies, nonprofits, businesses, and community-serving organizations to strengthen internal operations, improve processes, implement programs, and build the systems needed to move organizational goals from vision to execution.

Program & Project Implementation Program development Implementation planning Project coordination Stakeholder coordination Resource management	Events & Experiences Event development Vendor coordination Community activations Fundraising event support Program logistics
Organizational & Workforce Support Human resources support Payroll administration Staff onboarding Training systems Organizational development	Food Systems & Sustainability Food-access initiatives Value-added product development Producer coordination Waste-reduction strategies Consumer distribution

DIFFERENTIATORS

Implementation-Focused: We help build and implement solutions, not simply recommend them.

Systems Thinking: We examine the people, processes, resources, and barriers surrounding a challenge.

Organization-Centered: We build around each client's existing vision, goals, and operational needs.

Cross-Sector Experience: Experience spans nonprofit administration, workforce development, food systems, community initiatives, events, and entrepreneurship.

SELECTED EXPERIENCE

Nonprofit Operational Support - Provided human resources and operational support to a growing nonprofit, including weekly payroll processing for 30+ employees; collaborated on social media content development and supported cultivation of fundraising events.

Food Systems & Product Development - Supported a time-sensitive initiative that transformed excess produce into value-added products and facilitated distribution to consumers, helping create value from resources that could otherwise have gone unused.

Founder Experience - Workforce Development - Co-developed a workforce initiative connecting women experiencing economic barriers with employers, HR professionals, community and government resources, transportation assistance, resume development, and interview-readiness support.

CERTIFICATIONS & BUSINESS DESIGNATIONS

WBE - Women's Business Enterprise | WOSB - Women-Owned Small Business | Black-Owned Business
